

Erin Colvin

Location: Dayton
Emergency

Dr. Colvin completed her undergraduate degree at the University of California, San Diego. After a clinical year at the University of Georgia, she received her Doctorate of Veterinary Medicine from St. George University in Grenada, West Indies. The following year she completed her internship at an equine hospital in Bonsall, California, then split time between an equine practice and a mixed animal practice in Northern California. In 2011, she worked exclusively in small animal practices and provided relief work for several different hospitals in the Sacramento, California area. Her husband's Air Force career created the opportunity for her to move to the Dayton area, and she has been here ever since. Dr. Colvin and her husband, along with their two kids, dogs and cats, love exploring Ohio and all it has to offer.
