

CHRIS BLOOM

DVM, Practice Limited to Radiation Oncology

Dr. Bloom was drawn to Radiation Oncology in particular after his experience with a cancer diagnosis in his own pet as he wants to help other pet parents going through a similar experience. The most common types of cancer Dr. Bloom treats are brain tumors and nasal tumors, with a special interest in nasal lymphoma in cats. Dr. Bloom enjoys developing a collaborative relationship between all pet caregivers - including the primary care veterinarian and pet parents.

CORRINE CAMERO

DVM, MS, DACVIM

After receiving her Bachelor of Arts in Biology from Wayne State University, Dr. Corrine Camero went on to attend The Ohio State University and obtained her DVM. Following her studies at OSU, she completed a Rotating Internship in Small Animal Medicine and Surgery at BluePearl Michigan, where she remained for three years as a Senior Emergency Clinician. Dr. Camero completed her Residency in Medical Oncology at the University of Illinois. She now practices medical oncology with a focus on client communication and patient quality of life and loves working closely with the Care Center team.

CARISSA J. NORQUEST

DVM, DACVIM

Carissa Norquest received her Bachelor of Science in Biology from The Ohio State University in 2011 and her DVM from Auburn University College of Veterinary Medicine in 2016. She went onto a Small Animal Medicine and Surgery Internship at the University of Missouri and was able to continue her specialty training through a Medical Oncology Residency with her Mizzou family. Within Oncology, Dr. Norquest's special interests have been centered around managing cancer bone pain and nonsurgical options for dogs with appendicular osteosarcoma.

AKI OTOMO

DVM, Fellowship Trained, Surgical Oncology

Dr. Otomo received her DVM from St. George's University in 2017 before completing her Rotating Internship at Ontario Veterinary College University of Guelph in 2018. Dr. Otomo then went on to complete her Surgical Internship at VCA Animal Specialty and Emergency Center (LA) in 2019 before moving onto her Surgical Residency at Louisiana State University in 2022. Most recently, Dr. Otomo completed her Surgical Oncology Fellowship at Colorado State University in 2023, before joining the Care Center team. Dr. Otomo's goal is to improve a pet's quality of life throughout the cancer treatment process.

ALEC B. REPASY

DVM, Practice Limited to Medical Oncology

Dr. Alec Repasy received his DVM from The Ohio State University in 2018. He then went on to complete his Rotating Internship at the University of Wisconsin-Madison School of Veterinary Medicine in 2019, before returning to The Ohio State University to complete his Residency in Medical Oncology in 2022. With a special focus in chemotherapy, Dr. Repasy emphasizes the quality of a patient's life, not the quantity, and aims to ensure that his clients understand all options, finding the best route of treatment for their pet together.

COMPREHENSIVE CARE

Care Center offers a comprehensive and integrated approach to the treatment of your pet's cancer where Medical Oncology, Radiation Oncology and Surgical Oncology may all work together to provide the best treatment plan for your pet.

INDIVIDUALIZED CARE

Every patient and every family is unique and so are our treatment plans. Each plan is individualized to the patient, focusing specifically on your pet's quality of life while meeting your family's needs. At Care Center, we are treating more than just cancer.

A TEAM APPROACH

It takes a team to fight cancer. Our goal is to provide a team approach involving your family, your primary care veterinarian, and our Oncology service.

*Where there is hope,
together we can find it.*
