

Care Center believes your pet should receive the very best medical, surgical and supportive veterinary care available.

Our surgery department features state-of-the-art surgical suites staffed by a compassionate team ready to provide the best surgical care for your pets.

A COLLABORATIVE APPROACH

When appropriate, Care Center Surgeons collaborate with specialists from other disciplines to achieve the best possible patient outcomes.

CRITICAL CARE

Our surgery and 24-hour emergency departments are fully integrated. Care Center Criticalists support the surgery department with complex pre, intra, and postoperative patients.

ANESTHESIOLOGY

Care Center is equipped with an anesthesiology team to assist with high-risk surgical patients as well as improved pain management.

INTEGRATIVE MEDICINE

Our Integrative Medicine team works closely with our Surgeons to provide evaluation and formulate a treatment plan to help patients return to maximum functionality.

SURGERY

ONCOLOGY

Our surgical oncologic specialist works closely with our medical and radiation oncologists to provide ideal planning and execution of appropriate surgical cases.

RADIOLOGY

Diagnostic imaging modalities (digital radiology, ultrasonography, and CT) are used to accurately diagnose, plan surgical procedures, and navigate during surgery.

INTERNAL MEDICINE

If foreign bodies cannot be removed endoscopically, patients can quickly be transferred for surgical removal.

OUR SURGICAL CAPABILITIES

Surgeries can be performed 24-hours a day for emergencies, with no referral needed.

From advanced anesthetic monitoring to the most progressive surgical procedures, Care Center is known for its surgical expertise and intensive care in the areas below:
